

Command Line Interface Lab

Student Name : Emtnan Suliman Alomireni

Lead Instructor: Eng. Esraa Madhi

Teaching Assistant : Yasser Almubaddil & Mohammed Alamri

Submission Date:

Jan 27, 2025

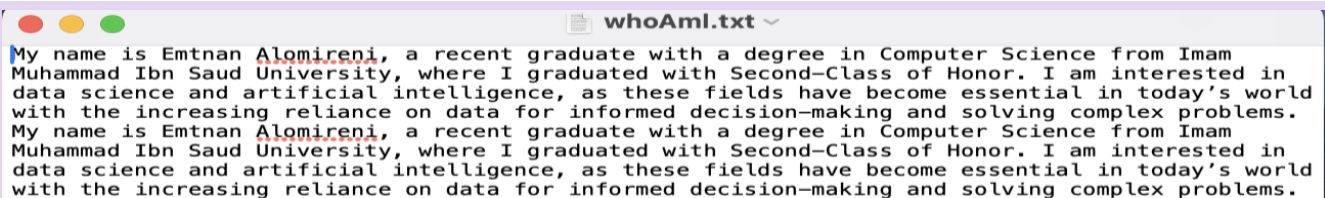

- Create a new directory and name it "LAB-1_CLI".
- Go inside the "LAB-1_CLI" directory.
- Create a new file "whoAml.txt".

```
emtnan@Emtnans-MacBook-Pro ~ % mkdir LAB-1_CLI
emtnan@Emtnans-MacBook-Pro ~ % cd LAB-1_CLI
emtnan@Emtnans-MacBook-Pro LAB-1_CLI % touch whoAml.txt
emtnan@Emtnans-MacBook-Pro LAB-1_CLI % ls
whoAml.txt
```

- Open the new file, and write an introduction about yourself. Then save the file.
- Show the content of the whoAml.txt file.

```
emtnan@Emtnans-MacBook-Pro LAB-1_CLI % echo "My name is Emtan Alomireni, a recent graduate with a degree in Computer Science from Imam Muhammad Ibn Saud University, where I graduated with Second-Class of Honor. I am interested in data science and artificial intelligence, as these fields have become essential in today's world with the increasing reliance on data for informed decision-making and solving complex problems." >> whoAml.txt
emtnan@Emtnans-MacBook-Pro LAB-1_CLI % open whoAml.txt
```

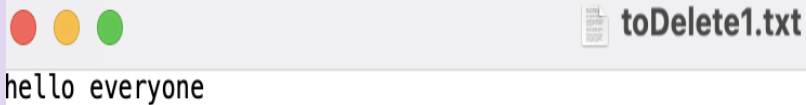

- Show the content of the whoAml.txt file.

```
My name is Emtan Alomireni, a recent graduate with a degree in Computer Science from Imam Muhammad Ibn Saud University, where I graduated with Second-Class of Honor. I am interested in data science and artificial intelligence, as these fields have become essential in today's world with the increasing reliance on data for informed decision-making and solving complex problems.

I am interested in data science and artificial intelligence, as these fields have become essential in today's world with the increasing reliance on data for informed decision-making and solving complex problems.
```

- Create a directory and name it “DS”.
- Go inside the “DS” directory.
- Create a new file “toDelete1.txt” with the following text “hello everyone”.
- Create another file “toDelete2.txt”.

```
emtnan@Emtnans-MacBook-Pro LAB-1_CLI % cd ..
emtnan@Emtnans-MacBook-Pro ~ % mkdir DS
emtnan@Emtnans-MacBook-Pro ~ % cd DS
emtnan@Emtnans-MacBook-Pro DS % touch toDelete1.txt && echo "hello everyone" >> toDelete1.txt
emtnan@Emtnans-MacBook-Pro DS % touch toDelete2.txt
emtnan@Emtnans-MacBook-Pro DS % ls
toDelete1.txt  toDelete2.txt
emtnan@Emtnans-MacBook-Pro DS % █
```

toDelete1.txt

hello everyone

- Go outside the current folder. Back to the “Lab-1_CLI” directory
- Delete the directory “DS” and all the files inside it.

```
[emtnan@Emtnans-MacBook-Pro DS % cd ..
[emtnan@Emtnans-MacBook-Pro LAB-1_CLI % ls
DS          whoAmI.txt
[emtnan@Emtnans-MacBook-Pro LAB-1_CLI % rm -r DS
[emtnan@Emtnans-MacBook-Pro LAB-1_CLI % ls
whoAmI.txt
emtnan@Emtnans-MacBook-Pro LAB-1_CLI % █
```
